KIRIN CRANE SYSTEM

DESCRIPTION

The new MovieTech Kirin crane is designed to meet the demanding requirements on your set:

It is **stronger, longer, more robust and more versatile** and **safer** than any other crane in its segment.

These qualities make our new Kirin Crane the perfect tool on every set; for **remote operation** as well as with a **manned platform**.

The feedback, ideas and wishes of many users all around the world have been implemented in this new crane concept.

Due to its modular lightweight construction and the **new locking mechanism**, the crane can be assembled in a very short time. The **patented Hart-Coat® surface** treatment protects the crane effectively from scratches and other impacts. Backlash-free connection plates and additional bracing rods increase the **stability** of the crane system.

When designing this new crane concept, **safety and user-friendliness** were always the priorities Number 1.

**STRONG.
VERSATILE.
SAFE.**

Version	Payload	Length front arm
Kirin Crane Remote	25 kg	13,5m
Kirin Crane Remote	50 kg	11m
Kirin Crane Plattform	180 kg	5,5m

* for all Kirin Crane versions and detailed set up, please see our user manual

SURFACE & DOLLY

KIRIN CRANE - HIGHLIGHTS

Patented Hart-Coat® surface.

The new ceramic-like patented Hart-Coat® surface of the MT Kirin Crane maximized its resistance towards scratches and other damages.

Strong and stable base dolly.

The key to a safe crane operation is a stable base dolly. Therefore the Kirin Crane stands on a base which is designed to offer a maximum of stability.

The extra wide column is devisable and can thus rise to the desired operation height.

- extra wide column
- devisable column
- 2- and optional 4-wheel steering

REMOTEHEAD MOUNT

KIRIN CRANE - HIGHLIGHTS

Innovative Remotehead-mount.

The Remote-head mount of the new MT Kirin Crane is designed to offer a maximum of freedom.

No matter how you want to mount your remotehead – the innovative concept allows you a variety of mounting positions.

- Integrated 4-way leveling
- Twistable remotehead-mount
- Twistable mounting plates
- Numerous mounting plates available

SEGMENTS

KIRIN CRANE - HIGHLIGHTS

Safe and backlash-free locking mechanism.

The innovative locking mechanism of the segments is self-centering and absolutely backlash-free. therefore it enables maximum stability and safety.

- Self centering and backlash-free

Interchangeable segments .

The crane consists of segments with a length of 0,5m, 1m and 1,5m. These segments can be combined with each other as required - this results in an almost infinite number of length-versions.

- All segments can be combined as desired

BRACING SYSTEM

KIRIN CRANE - HIGHLIGHTS

Super strong bracing system.

The newly developed guying system increases the stability of the crane many times over. A reinforced tower, ball-lock-pin connections and additional reinforcement rods guarantee maximum in safety. New leveling units with extra long travel ensure user-friendly set up.

- Telescopic rod for length compensation (no extra spacers needed)
- Reinforced tower and rods
- Ball-lock-pin connection

ACCESSORIES

KIRIN CRANE - HIGHLIGHTS

Easy to transport.

To facilitate the transport, bracing rods can be stored in the crane segments. The optional “on-board” transport system turns the base dolly into a fully integrated transport-trolley for all Kirin Crane components.

- Different transport possibilities like the optional “onboard” transport system
- Bracing rods can be stored in the segments

Wide range of accessories.

A wide range of crane accessories such as the platform for manned operation, the master track crane and dolly rails, various column extensions and special crane seats rounds off the MT Kirin Crane system.

- Most accessories are suitable in combination with other MovieTech products.
